Product Overview

Professional Cordless Lubrication

This cordless grease gun is a high-performance tool engineered for efficient lubrication in automotive, industrial, and agricultural environments. It features advanced battery technology and adjustable pressure settings to ensure consistent grease delivery for demanding maintenance tasks. Designed for versatility, the unit supports multiple cartridge types and includes a robust carrying case for portability and protection.

Performance & Power

Performance Metrics

3.2 oz/min

Output Rate

6500 psi

Max Pressure

2000 mAh

Battery Capacity

Electrical Specifications

- Battery Voltage: DC 12V - 24V
- Charger Voltage: 110V - 240V AC
- Operating Current: 2.6A - 6.0A
- Fast Charging: 1 hour

Pressure Control

Adjustable valve: 2,000psi - 6,000psi (Factory preset: 6,000psi)

Compatibility & Features

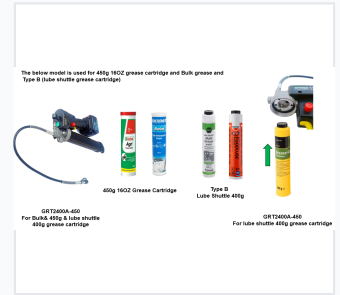

Specialized model for 500g grease cartridges, featuring a protective ring for secure operation.

Compatible with Type B lube shuttle 400g grease cartridges.

Model designed specifically for Jabara type bellows grease cartridges.

Versatile model compatible with bulk grease, 450g cartridges, and lube shuttle cartridges.

Key Features

LCD Battery Display • Self-Locking Button • Cold Climate Blanket • DC to AC Inverter • 12V Cigarette Adapter

Compatible Cartridge Types

DIN 1284 400g, Lube Shuttle 400g, 450g / 16oz Cartridge, Jabara Bellows, Bulk Grease

Physical Specifications

Dimensions & Weight

Component	Weight	Dimensions (mm)
Grease Gun (w/ battery)	3.15 kg	420 x 210 x 84
Battery	0.62 kg	84 x 70 x 115
Charger	1.3 kg	155 x 95 x 77
Total Unit (w/ case)	7.2 kg	520 x 420 x 100
