

Cordless Leaf Blower with 18V Lithium Battery

This cordless leaf blower is powered by an 18V lithium-ion battery. It is designed for clearing leaves and debris from lawns, patios, and other outdoor surfaces.

Product Overview

Efficient Outdoor Cleaning

This 18V cordless leaf blower is a reliable tool designed for quick and user-friendly cleaning of open areas and niches. It features a brush motor and two-speed control, allowing operators to adjust performance based on specific requirements. With a lightweight design and soft-grip handle, it ensures comfortable operation during extended use, while the Powerboost function enhances its blowing efficiency.

Performance Metrics

Blowing Air Flow

210 km/h
High Speed

175 km/h
Low Speed

Max Suction Power

170 m3/h
High Setting

140 m3/h
Low Setting

Technical Specifications

No-load Speed

- 11000 rpm
- 12500 rpm

Battery System

18V Lithium-Ion (1x18V)

Charging Time

2 h

Features

Key Features

Brush Motor, Two-Speed Control, Powerboost Function, Soft Grip, Lightweight
