Product Overview

Cordless Convenience for On-the-Go Blending

This portable blender is designed for active lifestyles, offering a cordless solution for making fresh smoothies, juices, and protein shakes anywhere. Featuring a compact 300ml capacity and powerful 16,000rpm motor, it handles ingredients efficiently while remaining lightweight for travel, office, or gym use. The device is powered by a rechargeable lithium battery and supports convenient USB magnetic charging, making it a versatile tool for daily health routines.

Technical Specifications

Model Number	HX-7057
Power Output	40 W
Battery Capacity	1500 mAh
Voltage	7.4 V
Rotation Speed	16000 rpm

Physical Dimensions

Cup Capacity	300 ml
Product Size	92 x 82 x 188 mm

Features

Core Features

- Lithium battery powered
- Microcomputer control
- Double-click to start safety mechanism
- USB magnetic contact charging
- Compatible with AC adaptors, power banks, and laptops
- Easy-clean detachable blade assembly
