

Cordless Rechargeable Chain Saw Sharpener

This rechargeable chain saw sharpener is designed for precise and efficient sharpening of saw chains. It features a compact and ergonomic design for ease of use and portability.

Product Overview

Professional Sharpening Solution

This cordless rechargeable chain saw sharpener is engineered for high-precision maintenance of saw chains. Its compact and ergonomic design ensures excellent portability and ease of use in diverse job site conditions. With a robust motor and adjustable settings, it delivers optimal sharpening angles to extend the lifespan of your cutting tools.

Technical Specifications

Maximum Speed	6500 rpm
Motor Power	550 W
Grinding Wheel Size	108 x 23 x 3.2 mm

Performance Features

Operational Advantages

- Cordless operation for improved maneuverability
- Adjustable settings for various chain types
- Secure chain clamping mechanism
- Durable construction for long-term reliability
