

Cordless Reciprocating Saw

This cordless reciprocating saw has a compact design for cutting in versatile applications. It features a tool-less blade change system for quick blade replacements and is powered by a 12V MAX 2.0Ah battery.

Overview

Versatile Cutting Power

This cordless reciprocating saw features a compact and ergonomic design, making it ideal for precision cutting in tight spaces. Powered by a 12V battery system, it offers the perfect balance of portability and performance for various professional applications. The tool-less blade change mechanism ensures efficient operation, minimizing downtime for the user.

Technical Specifications

No Load Speed

2800 RPM

Maximum Speed

Cutting Capacity

Material	Max Depth
Wood	30 mm
Steel	4 mm

Voltage	12 V
Blade Stroke	13.8 mm

Power & Battery

Charging Times

- 1 hour rapid charger
- 3-5 hour standard charger

Battery Capacities	1.3Ah, 1.5Ah, 2.0Ah
