Product Overview

Professional Cordless Rotary Hammer Drills

These high-performance cordless rotary hammer drills are engineered for demanding drilling and chiseling tasks in concrete, steel, and wood. Featuring robust motor designs and multiple operating modes, they offer the versatility required for construction and renovation projects. The cordless architecture ensures maximum portability and freedom of movement on any job site.

Technical Performance

Model Specifications

Model	Power	Impact Energy	Impact Rate
HDA301D	450	1.7	4250
HDA302D	450	1.7	4250
HDA303D	600	2.4	4600

Drilling Capacity

22 mm Concrete (Max)	30 mm Wood (Max)	13 mm Steel (Max)
--------------------------------	----------------------------	-----------------------------

Power System

Electrical Specs	24V DC, Cordless
------------------	------------------

Key Features

Functionality

- Rotary Hammer
- Rotary Drill
- Chisel Function
- Variable Speed Control

Design Highlights

Ergonomic Handle • Vibration Dampening • Quick-Change Chuck • Depth Gauge Included
