Overview

Professional Cordless Rotary Hammer

This high-efficiency cordless rotary hammer is engineered for demanding drilling and chiseling tasks in concrete, brick, and stone. Featuring a robust construction with high-strength nylon materials and an advanced air duct design for superior heat dissipation, it ensures stable performance under pressure. The integrated smart chip provides essential battery and motor protection, while the ergonomic design with laser skin patterning offers enhanced comfort during extended professional use.

Technical Specifications

Drilling Capacity

Material	Max Capacity
Concrete/Masonry	28mm
Steel	13mm
Wood	24mm

Rated Voltage	20 V

Features

Key Features

- Smart chip motor/battery protection
- High-strength nylon impact-resistant shell
- Advanced air-duct thermal management
- Ergonomic laser-patterned handle
- Integrated LED work light

Material Grade	High-Strength Nylon, Impact Resistant, Cordless, Professional Grade
