Overview

High-Performance Cordless Cleaning

This cordless stick vacuum cleaner is engineered for efficient home maintenance, featuring a powerful 250W brushless motor and an intelligent dust identification system that automatically adjusts suction power. With a high-capacity 2500mAh Li-ion battery, it provides up to 32 minutes of runtime, making it suitable for both quick cleanups and thorough cleaning sessions. The advanced filtration system, including a washable HEPA filter and stainless steel cover, ensures effective dust capture and prevents secondary pollution.
