Product Overview

Versatile Cordless Inflation and Air Solution

This cordless tire inflator and air pump system offers a dual-function solution for automotive, cycling, and general inflation needs. Powered by a 16V lithium-ion battery, it provides portable, high-performance operation with a digital pressure gauge for precise control. Designed for ease of use, the unit features an automatic shut-off function to prevent over-inflation and an ergonomic rubberized handle for comfortable operation.

Power & Battery

Voltage	16 V
Battery Capacity	1.5 Ah
Charging Time	1 hour
Power Features	Lithium Battery, LED Charging Indicator, 1.5m Cable

Performance Metrics

Inflator Performance

7 bar Max Pressure	550 # Motor Type
------------------------------	----------------------------

Blower Performance

45 m³/h Air Flow	390 # Motor Type
---------------------------------------	----------------------------

Control & Safety

Control Features

- Digital LCD Pressure Gauge
- Pre-setting pressure function
- Automatic turn-off
- LED working light
- Rubberized handle grip
