Product Overview

Cordless Convenience

This cordless air pump is designed for efficient and portable inflation of tires and various inflatable items. Powered by a 20V lithium-ion battery, it offers the freedom to inflate anywhere without the need for a power outlet. The compact, ergonomic design ensures easy handling, while the digital display allows for precise pressure monitoring during operation.

Technical Specifications

Voltage	20 V
Max Pressure	7 BAR
Max Pressure (PSI)	100 PSI
Pressure Tolerance	±0.5 PSI
Power Source	Lithium-ion Battery
