

Cotton and Synthetic Fiber Blend Mop

This mop is designed for both commercial and residential use. Its highly absorbent mop head, made of blended cotton and synthetic fibers, ensures excellent liquid retention and effective dirt removal.

Product Overview

Professional Cleaning Performance

The JM-3016 is a durable and efficient cleaning tool designed for both commercial and residential environments. Featuring a highly absorbent mop head made of a blend of cotton and synthetic fibers, it ensures excellent liquid retention and effective dirt removal across various hard surfaces. The mop is equipped with a sturdy, lightweight 1.2-meter steel handle, providing long-lasting performance and ease of maneuverability for thorough cleaning with minimal effort.
