Product Overview

Professional Countersink Drill Bit Set

This high-speed steel countersink drill bit set is engineered for creating clean, burr-free, and consistent countersunk holes across a wide range of materials. Designed for durability and long-lasting performance, these bits feature precision-ground cutting edges that ensure smooth, chatter-free operation. Whether for woodworking, metalworking, or general-purpose drilling, this versatile set provides the accuracy needed for a professional finish.

Technical Specifications

Applications

Woodworking • Metalworking • General Drilling

Key Features

- Precision-ground cutting edges
- Chatter-free operation
- Burr-free hole creation
- Durable construction

Material

High-Speed Steel (HSS)

Available Size Ranges (mm)

2-5, 5-10, 10-15, 15-20
