

Countertop Blender with Glass Jar

This countertop blender features a durable glass jar and stainless steel construction. It is equipped with multiple speed settings and a pulse function for versatile blending.

Product Overview

High-Performance Countertop Blender

This countertop blender is designed for efficiency and durability in professional environments, featuring a robust stainless steel housing and a high-quality glass jug. It provides versatile blending capabilities with multiple speed settings, a pulse function, and powerful ice-crushing performance. Ideal for smoothies, soups, and sauces, the unit prioritizes user safety and operational longevity with a low-noise motor design.

Technical Specifications

Motor Power

800 W

Peak Power

500 W

Rated Power

Operating Voltage

220V-240V

Design and Materials

Jar Capacity

1 L

Maximum Filling Capacity

0.8 L

Housing Material

Stainless Steel

Blade Configuration

Six-blade electrolyse design

Features and Performance

Speed Levels

- Pulse
- Speed 1
- Speed 2

Utility Features

Removable filter cap • Stainless steel base

Core Functionalities

Ice Crushing, Pulse Operation, Low Noise Motor, Safety Lock System
