

Countertop Ice Maker

This ice maker is a compact and portable appliance suitable for home or office use. It produces ice cubes quickly and features a user-friendly control panel to select ice cube size and monitor water levels.

Product Overview

Efficient Countertop Ice Production

This compact, freestanding ice maker is designed for convenience, capable of producing up to 12KG of bullet-shaped ice every 24 hours. Featuring an elegant design with a large transparent window, it allows users to monitor the ice-making process easily. The unit includes user-friendly controls, an anti-bacterium material construction, and smart indicators for water levels and ice capacity.
