

# Countertop Ice Maker and Crusher

This appliance combines the functionality of an ice maker and an ice crusher. It is designed for countertop use and includes a dispensing mechanism for crushed or cubed ice.

## Product Overview

### Versatile Ice Solution

This countertop appliance provides a dual-function solution for your beverage needs by combining an ice maker with a built-in ice crusher. Housed in a durable white plastic exterior with a stainless steel ice container, it is designed for convenient placement in any kitchen or bar area. The unit features an integrated dispensing mechanism that allows users to easily switch between cubed and crushed ice, making it an essential tool for serving chilled drinks.
