

# Covered Electric Tricycle with Passenger Seat

This electric tricycle includes a covered canopy. It has a passenger seat and is suitable for personal transportation.

## Overview

### Designed for Stable and Comfortable Mobility

This covered electric tricycle offers a reliable solution for personal transportation and short-distance commuting. Featuring a stable three-wheel design with a protective canopy, it provides shade and comfort while ensuring an easy-to-use step-through frame. It is an ideal choice for users seeking stability, safety, and protection from environmental elements during daily travel.
