Product Overview

Precision SMT Nozzle Holder

This SMT nozzle holder is precision-engineered for reliable performance in high-speed assembly environments. Crafted from durable high-quality materials, the component ensures secure and stable nozzle placement for consistent industrial operations. Available in original and high-quality copy variants, it provides a cost-effective solution for maintaining optimal pick-and-place accuracy.

Material Composition

Durable Black Material

Compatibility

Machine Compatibility

CP45FV, CP40

Technical Specifications

Supported Nozzle Variations

Part Code	Outer Diameter	Inner Diameter	Part Reference
N045	1.00 mm	0.50 mm	J2101938
N06	0.82 mm	0.52 mm	N/A
N06-C	0.82 mm	0.52 mm	N/A
N08	1.50 mm	N/A	N/A
