

CPU 4-Pin Power Cable

This CPU 4-Pin power cable delivers reliable power to the CPU. It is compatible with standard ATX power supplies and motherboards.

Product Overview

Premium CPU Power Extension

This premium 4-pin CPU power cable extension is designed to provide both reliable power delivery and exceptional aesthetic appeal for custom PC builds. Featuring a high-density braided nylon jacket and 41*0.16 pure copper wire construction, it ensures stable performance while maintaining flexibility for easier routing. Its universal compatibility with standard power supplies makes it an ideal choice for system builders aiming for clean, professional cable management.
