

CPU Cooler with Aluminum Fins and Pink Cooling Fan

This high-performance CPU cooler is designed to efficiently dissipate heat from your processor, ensuring stable and reliable operation even under heavy loads. It features a dense array of aluminum fins for maximum surface area, coupled with a vibrant pink cooling fan for optimal airflow.

Overview

High-Performance Thermal Management

This high-performance CPU cooler is engineered to efficiently dissipate heat, ensuring stable and reliable processor operation even under heavy computational loads. Featuring a dense array of aluminum fins for maximum surface area and a vibrant pink cooling fan for optimal airflow, it combines style with functionality. Designed for versatility and ease of use, it includes a secure mounting mechanism compatible with a range of CPU sockets, making it an ideal choice for gamers and overclocking enthusiasts.

Physical Characteristics

Fan Color

Pink

Heatsink Material

Aluminum

Performance

Key Benefits

- High thermal dissipation efficiency
- Optimized airflow design
- Stable operation under heavy loads
- Secure mounting mechanism

Compatibility

Ideal For

Gamers, Overclocking Enthusiasts
