

CR2025 Lithium Button Cell Battery 3V

This CR2025 lithium button cell battery provides 3V power for various electronic devices. It is designed for stable voltage output and long shelf life.

Overview

High-Performance Lithium Coin Cell

The CR2025 3V lithium button cell is a reliable and compact power solution engineered for low-drain electronic devices. Featuring high energy density and a stable voltage output, it ensures consistent performance for critical applications. Its durable design offers a long shelf life, making it an ideal choice for professional-grade electronics, medical equipment, and precision instruments.

Technical Specifications

Dimensions

20 mm

Diameter

2.5 mm

Height

Nominal Voltage

3 V

Battery Chemistry

Lithium

Applications

Common Applications

Watches, Calculators, Remote Controls, Medical Devices

Performance

Key Features

- Stable voltage output
- High energy density
- Long shelf life
- Wide operating temperature range
