Overview

High-Performance Crawler Scissor Lift

The Crawler Scissor Lift Platform is engineered for demanding construction, maintenance, and installation tasks. Featuring a robust tracked undercarriage, it offers superior traction and stability on uneven terrain, making it suitable for both indoor and outdoor applications. With a spacious platform and safety railings, it provides a secure and efficient solution for reaching elevated work areas.

Technical Specifications

Load Capacity

500 kg

Max Load

Model Number

SJY0.5-11C

Design & Mobility

Undercarriage Type

Crawler • Tracked

Mobility Features

- Self-propelled
- Enhanced traction on uneven terrain
- Suitable for indoor and outdoor use

Safety

Safety Equipment

Safety Railings, Robust Scissor Mechanism, Stable Platform
