

# CRT Color Television with Built-In Antenna

This CRT color television is equipped with a built-in antenna. It is designed for displaying standard definition content and features front-mounted control buttons.

## Product Overview

### Vintage CRT Television

This CRT color television features a classic design with an integrated antenna, making it a nostalgic choice for enthusiasts or specific technical applications. Its compact form factor is complemented by front-mounted controls for easy user navigation. The integrated ventilation system ensures reliable heat dissipation during operation, maintaining consistent performance for standard definition media.
