

CRT Television Set

This classic CRT television features a black plastic casing with a white frame around the screen. Ventilation grills are incorporated on the side for heat dissipation.

Product Overview

Classic CRT Display Technology

This classic CRT television set features a robust black plastic casing with a distinctive white frame around the display area. Designed for utility and classic aesthetics, the unit includes convenient front-facing control buttons and a dedicated power switch. Integrated side ventilation grills ensure proper heat dissipation for reliable operation, making this a quintessential example of traditional cathode ray tube display technology.
