

# CRT Television with 4:3 Aspect Ratio

This is a portable cathode ray tube (CRT) television. It features a standard 4:3 aspect ratio and a curved screen.

## Product Overview

### Vintage CRT Display Technology

This cathode ray tube (CRT) television offers a classic 4:3 aspect ratio, ideal for retro computing, gaming enthusiasts, or period-accurate media setups. Encased in a durable black plastic housing with a distinctive white bezel, this unit features a curved screen that delivers a unique visual experience characteristic of vintage broadcast hardware. Its integrated control interface and ventilation design ensure operational stability for dedicated audiovisual applications.
