

CRT Television with Integrated Speakers

This CRT television is a portable model with integrated speakers on either side of the screen. It features a silver and black finish, a base stand, and front-panel buttons for basic controls.

Product Overview

Classic CRT Visual Experience

This CRT television features a traditional tube display paired with a convenient integrated speaker system, providing a self-contained audio-visual solution. Designed with a sturdy base stand and intuitive front-panel controls, it offers reliable performance and ease of use. This unit is an excellent choice for applications requiring established display technology with high-quality, built-in sound output.
