

# Curved Beam Step-Through Motorcycle

This curved beam motorcycle is designed for efficient urban transportation. It features a step-through frame for easy mounting and dismounting and a reliable single-cylinder engine.

## Overview

### Urban Mobility Solution

The LJ110-2C is a curved beam motorcycle specifically engineered for efficient urban transportation. Featuring a user-friendly step-through frame, it allows for effortless mounting and dismounting, making it an ideal choice for daily commuting. Its robust construction and reliable single-cylinder engine provide a practical, economical, and long-lasting solution for short-distance travel.

## Technical Specifications

### Design Highlights

Step-through frame • Curved beam architecture • Ergonomic riding position

Engine Configuration	Single-cylinder
Included Equipment	Headlights, Taillights, Turn Signals, Speedometer
