

Curved Blade Cutter with Wooden Handle

This cutter features a curved blade and a wooden handle. It is designed for cutting and shaping materials in workshops, construction sites, and home improvement projects.

Product Overview

Professional Curved Blade Cutter

This high-performance curved blade cutter is engineered for precision cutting and shaping tasks across various professional environments. Featuring a high-carbon steel blade, it ensures long-lasting sharpness and durability for demanding applications. The ergonomically designed wooden handle provides a secure, comfortable grip, significantly reducing hand fatigue during extended use in workshops or on construction sites.

Technical Specifications

Blade Material	High-carbon steel
Handle Material	Wood
