

Curved Blade Folding Technician's Knife

This folding knife is designed for technicians and features a curved blade. The knife includes a durable handle with a textured grip, a secure locking mechanism, and a carabiner clip.

Product Overview

Professional Technician's Knife

This folding technician's knife features a specialized curved blade edge designed for precision cutting tasks. Built for durability and comfort, it utilizes a stainless steel blade for corrosion resistance and a soft-touch TPR grip for superior control. The integrated safety lock-back design ensures secure operation during demanding professional use.
