

Curved Claw Hammer with Wooden Handle

This curved claw hammer is designed for hammering and nail pulling. It features a forged steel head with a curved claw and a wooden handle.

Product Overview

Professional Grade Curved Claw Hammer

This curved claw hammer is engineered for versatility and durability in both professional and DIY environments. Featuring a drop-forged 45# carbon steel head that has been heat-treated for superior strength, it ensures reliable performance during heavy-duty tasks. The polished surface finish provides corrosion resistance, while the robust hardwood handle offers a comfortable, balanced grip for extended use.
