

Curved Pruning Saw with High-Carbon Steel Blade

This curved pruning saw is designed for cutting branches and limbs. It features a high-carbon steel blade with precision-ground teeth for efficient cutting and an ergonomic handle for a comfortable grip.

Product Overview

Professional Pruning Performance

This curved pruning saw is engineered for precision cutting of branches and limbs in professional landscaping and gardening environments. Featuring a high-carbon steel blade with precision-ground teeth, it delivers an efficient pull-cut action that maximizes power with every stroke. The design emphasizes user comfort and safety, incorporating an ergonomic handle for reduced fatigue and a secure locking mechanism to ensure stability during operation.

Technical Specifications

Blade Material	High-carbon steel
Cutting Mechanism	Pull-cut action

Design Features

Key Features	Foldable, Curved Blade, Ergonomic Handle, Locking Mechanism
--------------	---

Usage

Suitable Applications

- Gardening
- Landscaping
- Tree trimming
