

Cutter Mattock with Fiberglass Handle

This cutter mattock features a dual-blade head, ideal for cutting and prying. It is equipped with a plastic-coated fiberglass handle, providing a strong and comfortable grip.

Product Overview

Professional Grade Cutter Mattock

This durable cutter mattock is engineered for heavy-duty landscaping and construction tasks. Featuring a robust dual-blade head, it excels at digging, chopping, and prying through tough terrain. The fiberglass handle provides a lightweight yet strong foundation, finished with a textured grip for enhanced handling and safety during intensive use.

Physical Characteristics
