

Cutting and Gripping Tool Set

This tool set includes a cutter and tongs designed for cutting and gripping tasks. The cutter features a sharp blade, while the tongs provide a strong grip for holding objects.

Product Overview

Versatile Cutting and Gripping Solution

This professional-grade tool set includes a high-performance cutter and a robust pair of tongs, designed for precision and durability in demanding environments. The cutter features a sharp, hardened steel blade capable of handling vegetation or thin metals with ease, while the heavy-duty metal tongs offer superior gripping power for material manipulation. Engineered with ergonomic handles, this set ensures operator comfort and safety, making it an essential addition for agriculture, gardening, and metalworking applications.

Technical Details

Cutter Blade Material	Hardened steel
Tongs Construction	Robust metal

Key Features

Design Advantages

- Ergonomic handle design
- Hardened steel blade for durability
- Precision gripping control
- Heavy-duty construction

Primary Applications	Agriculture, Gardening, Metalworking
