

Cylinder Head Gasket for HONDA Engines

This cylinder head gasket is designed for HONDA diesel and gasoline engines. It provides a reliable seal between the cylinder head and engine block, preventing leaks and maintaining optimal compression.

Product Overview

High-Performance Engine Sealing Solution

This cylinder head gasket is precision-engineered to provide a reliable and durable seal between the cylinder head and engine block for both diesel and gasoline engines. Designed to withstand high temperatures and pressures, it effectively prevents leaks and maintains optimal engine compression. Its robust construction ensures efficient engine operation and supports long-term engine longevity.

Compatibility & Specifications

Supported Engine Types

Diesel • Gasoline

| | |
|-----------------------------|---------------|
| Engine Model | D15B2 |
| OEM Part Number | 12251-PM5-S02 |
| Overhaul Full Set Reference | 06110-P01-010 |
