

Cylindrical Barrel Hair Curling Iron

This professional hair curling iron features a cylindrical barrel and spring clamp for creating defined curls. It is equipped with temperature control, a cool tip for safe handling, and a swivel power cord for ease of use.

Product Overview

Professional Styling Performance

This professional-grade hair curling iron is designed for efficiency and ease of use in salon or personal settings. Featuring a reliable PTC heating element, it ensures rapid and consistent heat distribution for defined, long-lasting curls. The ergonomic design includes a 360° swivel cord and a safe, cool-tip barrel, making it a versatile tool for various hair styling needs.
