

Cylindrical Wet/Dry Vacuum Cleaner

This is a wet/dry vacuum cleaner with a cylindrical design. It is equipped with a hose connection and wheels for mobility.

Product Overview

Versatile Cleaning Performance

This cylindrical wet/dry vacuum cleaner is engineered for efficient debris and liquid removal. Designed with a robust motor and a mobile base, it is well-suited for diverse commercial or household cleaning requirements. Its compact form factor ensures easy maneuverability while maintaining significant suction capability.

Design and Portability

Key Design Elements	Cylindrical body, Top-mounted motor, Integrated wheels, Hose connection port
Mobility	Yes

Technical Specifications

Cleaning Modes

Wet suction • Dry suction
