Professional Interior & Exterior Surface Care

This advanced formula dashboard polish is designed to clean, protect, and enhance the appearance of vehicle interiors and rubber components. It provides a high-gloss finish while offering anti-static, dirt-proof, and anti-aging properties to extend the life of treated surfaces. Suitable for dashboards, car seats, door panels, and tires, it creates a durable protective film that guards against environmental wear.

Key Features

Primary Benefits

- Anti-static protection to repel dust
- Anti-aging formula to prevent surface cracking
- Dirt-proof barrier for easier cleaning
- High-gloss finish on rubber and plastic

Technical Specifications
