

Data Transfer Cable

This cable enables data transfer between electronic devices. It ensures efficient connectivity for various applications.

Product Overview

Professional Lighting Solution

This LED step light is engineered for both indoor and outdoor safety applications, providing subtle and energy-efficient illumination. It features a durable stainless steel trim paired with a rectangular frosted lens for a sleek, modern aesthetic. Designed for recessed mounting, the unit arrives with a white housing and an integrated black power cable, ensuring straightforward installation for walls or steps.
