

Daylight LED Bulb

This LED bulb provides bright, daylight illumination for various applications. It is designed for energy efficiency and long-lasting performance.

Product Overview

Daylight LED Bulb

This high-performance LED bulb is engineered to provide crisp, daylight illumination suitable for a wide range of indoor environments, including homes and professional offices. Designed with energy efficiency in mind, it offers a significant reduction in power consumption compared to traditional lighting solutions. Its robust construction ensures a long operational lifespan, making it a reliable and cost-effective choice for sustained lighting needs.

Technical Specifications

Power Consumption

9 W

Power

Voltage	220-240V~50/60Hz
Base Type	E27
Color Temperature	6500 K
Beam Angle	200 °
Average Life	15000 H

Features

Key Features	Energy Efficient, Daylight Illumination, Long Lifespan, Indoor Use
--------------	--
