

DC 12V Buzzer Alarm Speaker

This 12V DC buzzer produces an audible tone. It features a compact design with a mounting bracket and two-wire connector.

Product Overview

High-Performance 12V DC Buzzer

This compact DC 12V buzzer is engineered for clear and reliable sound output in diverse electronic applications. Designed for versatility, its robust construction includes an integrated mounting bracket for secure installation in automotive or industrial settings. The unit provides consistent auditory alerts, making it an essential component for warning systems and signaling devices.

Technical Specifications

Rated Voltage

12 V

Voltage

Power Type	DC
Component Type	Buzzer, Speaker, Chime

Installation

Mounting	Integrated Mounting Bracket
Connection	Two-wire connector
