Product Overview

High-Performance DC Fast Charging Solution

This all-in-one DC fast charger is engineered for rapid and effective deployment in diverse environments, from urban public parking stations to expressway charging hubs. Featuring a modular architecture, it supports both CCS and CHAdeMO standards, ensuring broad compatibility with a wide range of electric vehicles. Designed for durability, the unit is encased in a robust, all-weather enclosure suitable for both indoor and outdoor installations.

Technical Specifications

Max Output Current

125 A

40kW Model

200 A

80kW Model

Compliance Standards

- IEC 62196
- IEC 61851
- JEVS G105

Power Configurations

40kW, 80kW

Output Voltage Range

200 to 950 VDC

Charging Standards

CCS, CHAdeMO

Features & Connectivity

User Interface

- 7-inch full color touchscreen
- RFID reader for authentication
- Friendly human-machine interface

Connectivity

OCPP • Remote Services Ready

Physical & Environmental

Ingress Protection	IP54
Environment	Indoor, Outdoor
