

DC Inverter MMA Welder

This DC inverter MMA welder is compact, lightweight, and energy-efficient. It provides a stable arc, deep molten pool, and self-protection against over-voltage and over-current.

Overview

Professional DC Inverter MMA Welder

This DC Inverter MMA welder is engineered for industrial-grade performance, offering a compact and lightweight design without compromising on power. It features advanced inverter technology that ensures stable arc performance, minimal spatter, and deep molten pool penetration for high-quality welds. Designed for reliability, the unit includes built-in protective measures against over-voltage and over-current, making it a robust solution for demanding welding tasks.

Performance

Safety Features

- Over-voltage protection
- Over-current protection
- Anti-interference technology

Arc Characteristics

Stable Arc, Good Arc-Striking, Low Spatter, Deep Molten Pool

Design

Design Advantages

Compact Size • Lightweight • Energy Efficient

Technical Specs

Model Identifier

ZX7-500

Welding Process

MMA (Manual Metal Arc)
