

DC Inverter MMA Welding Machine

This DC inverter MMA welding machine is compact, lightweight, and energy efficient. It offers stable arc performance and self-protection against over-voltage and over-current.

Overview

Professional DC Inverter MMA Welder

This DC inverter MMA welding machine is designed for reliable stick welding applications in both workshop and on-site environments. Featuring adjustable amperage control and a compact, portable design, it offers the flexibility needed for various metalworking tasks. With an efficiency rating of 85% and a robust output range of 30-200A, it is a versatile tool for professional welding requirements.

Electrical Specifications

Input Power

220 V

Voltage

50 Hz

Frequency

7.1 KVA

Input Capacity

Rated Input Current

32.2 A

Performance

Output Current Range	30-200A
Duty Cycle	40 %
Efficiency	85 %
Power Factor	0.93

Safety & Standards

Protection Class

IP21

Insulation Class

B

Physical Attributes

Dimensions	403 x 153 x 302 mm
Weight	8 KG
