

DC Inverter Split Air Conditioner

This DC inverter split air conditioner provides both cooling and heating functionality. It has a capacity of 9000-12000 BTU/h and cooling power of 2500-3300W.

Product Overview

Advanced DC Inverter Split System

This wall-mounted DC inverter split air conditioner offers a versatile climate control solution for both residential and commercial environments. Featuring a sleek, modern brushed silver finish with a digital temperature display, it provides efficient cooling and heating performance. The unit is specifically engineered for energy-saving operation while maintaining a quiet atmosphere in any indoor space.
