

## DC Motor 6-36V

This DC motor operates with a working voltage of 6-36VDC. It provides a speed range of 2000-8,000RPM and an output power of 30-300W.

### Product Overview

#### High-Performance DC Motor

This versatile DC motor is engineered for reliable performance across a wide range of industrial and automation applications. With a flexible operating voltage and adjustable speed capabilities, it provides precise motion control for robotics and various equipment needs. Its robust construction ensures durability even in demanding operational environments.

### Technical Specifications

Operating Voltage	6-36VDC
Speed Range	2000-8000 RPM
Output Power Range	30-300W
Model Identifier	HNDC-78ZYT12-4459

### Performance Metrics

#### Standard Performance Ratings

**12 V**

Rated Input Voltage

**2500 RPM**

Rated Speed

### Applications

Ideal Applications	Robotics, Automation, Industrial Equipment, Motion Control
