Product Overview

High-Performance Appliance Motor

This robust DC motor is specifically engineered for household appliance applications, providing reliable power for devices such as slow juicers, dough makers, and food processors. Designed for consistent performance, it features a durable housing and precision-engineered shaft assembly to ensure smooth, efficient, and low-noise operation. Its compact form factor and versatile mounting points make it an ideal component for various equipment integration needs.

Technical Specifications

Power Draw

6 W

Min Power

8 W

Max Power

Speed Range

700 RPM

Min Speed

900 RPM

Max Speed

Rated Voltage

24 V

Application & Compatibility

Recommended Uses

Slow Juicer, Water Pump, Dough Maker, Food Processor

Design & Construction

Housing

Cylindrical

Electrical Connection

Screw terminals
