

DC Motor for Exhaust Fan Air Purifier

This DC motor is designed for use in exhaust fans and air purifiers. It features durable metal construction with mounting brackets for easy installation.

Product Overview

High-Performance DC Motor

The DC 98 motor is a robust and efficient solution engineered specifically for exhaust fans and air purifiers. Designed with durable metal construction, it provides reliable performance for various household electrical appliances. Its compact form factor and included mounting brackets ensure straightforward installation in demanding environments.

Technical Specifications

Power Draw

200 Watts

Power Draw

Voltage Options

DC12V, DC24V

Application

Typical Applications

- Exhaust Fans
- Air Purifiers
- Cooling Fans
- Automobile Manufacturing
