

DC Motor for Handheld Blenders

This DC motor is designed for use in handheld blenders. It features a robust construction with a metal housing, ensuring durability and longevity.

Product Overview

High-Performance DC Motor

This high-performance DC motor is engineered for reliable operation in demanding kitchen appliance applications. Featuring robust construction with a durable metal housing, it is designed for longevity and consistent power delivery. The precisely machined shaft ensures optimal power transfer, making it an ideal component for handheld blenders, ice blenders, and other small appliances.

Technical Specifications

Power Draw

300 W

Power Draw

Speed

10000 RPM

Speed

Voltage Range

DC 100V - 240V

Applications

Compatible Applications

Hand Blender, Ice Blender, Bar Mixer, Beauty Appliance, Power Tools
