Overview

High-intensity LED strobe light suitable for trucks, cars, and emergency vehicles.

Reliable construction ideal for construction and emergency vehicles.

High-Visibility LED Strobe Solution

This high-performance LED strobe flash light is engineered for versatile vehicle applications, operating on a wide DC10-30V voltage range. With 18 distinct flashing functions, it provides critical visibility for emergency, construction, and utility vehicles. Its robust IP65-rated design ensures reliable performance in demanding environments, backed by a 12-month warranty.

Technical Specifications

Durable housing designed for long-lasting performance in various weather conditions.

Compact design featuring multiple LEDs for maximum brightness.

Waterproof Rating

IP65

Model Number	CH-100-6
Operating Voltage	10-30V DC
Flash Functions	18
Certifications	CE
Warranty	12 Months
