

# Debit Card

Debit cards are payment cards that allow the cardholder to make purchases by electronically transferring funds directly from their bank account to the merchant's account. These cards provide a convenient alternative to cash and checks, and are widely accepted for both online and in-person transactions.

## Product Overview

### Multi-Functional Financial Card

This debit card is a versatile financial tool designed for secure deposits, withdrawals, transfers, and consumer transactions. It is engineered to perform reliably across diverse sectors including finance, insurance, transportation, and public utility payments. Built to rigorous international standards, it offers a secure and efficient solution for modern payment needs.

## Standards & Compliance

International Standards

ISO/IEC 7816, EMV2000, PBOC

## Applications

### Supported Industries
