

Decorative Outdoor Street Light

This outdoor street light features a decorative design with a multi-faceted lamp head, supported by a fluted pole and a tiered base. The overall finish has an antique brass or bronze appearance, suggesting durability and weather resistance for outdoor use.

Product Overview

Decorative Outdoor Street Lighting

This decorative street light combines classic aesthetic appeal with durable construction for reliable outdoor illumination. Featuring high-quality aluminum die-casting and a weather-resistant powder-coating, it is designed to withstand the elements while providing a sophisticated look for public or private pathways. With universal voltage compatibility and standard lamp holder options, this luminaire offers flexible installation solutions for various professional landscaping and urban projects.

Technical Specifications
